BULLSHIT – It's been four years of bullshit, but we all need to shovel sometimes. I learned how really well. ~~Anyoka~~ Anyway. I've liked being with you these years. We're different people, but everyone manages. If I ever need a doctor or lawyer, I'll give you a call. Hopefully I'll call you sooner. Gail

Dear Jim,

I hope your College days are great. I'm sure they will be a lot of Fun and Keep in Touch!

Good luck

Since his coming here two years ago, there has been one teacher who has meant a great deal to the senior class. Not only has this teacher helped in our growth, but he has also grown with us through time. Steve Bartholomew has many admirable qualities which make him loved by our class. His willingness to listen and his understanding of life give him a feeling of fulfillment which he shares with us. Therefore, it is with gratitude and respect that we dedicate this yearbook to Steve Bartholomew.

May the longtime sun shine upon you,
all love surround you,
and the pure light within you
guide your way on . . .

# FACULTY

Jim,
To have known you and your class has become more and more important to me as your last days here draw to an end. Not your last days, for I at least hope you will return. The growth I've seen in you and others and the glimpse of the great things and potentials within you, mean a great deal to me.
ENJOY All you DO
Keep in touch
Steve

The MFS Upper School library has much in common with a three – ring circus: Students may not swing from a trapeze, but music, parades of students, wild animals (in books), color and drama are daily occurrences in the library.

The Circus: A separate culture where the grotesque bathe in their uniqueness while they thumb their noses at the "normal" audience. A pathetic scene. MFS: A separate environment where the privileged labor to refine themselves for the purpose of giving to those outside. A joyous celebration.

Ann Gay
Art

In a circus, we immediately think of the colorful performers who bask in the limelight. But what is a trapeze artist without the people behind the scenes? It is important to remember the value of everyone, that each of us is important. The success and diversity of a circus depends on many people with different talents, each doing his or her thing, and doing it well. MFS is similar. The Headmaster, the student, the curriculum director, the teacher, the secretary, the bus driver: each adds to the success and diversity of the school.

Somewhere Over The Rainbow

Somewhere over the rainbow
Way up high
There's a place that I've heard of
Once in a lullaby
Somewhere over the rainbow
Bluebirds gonna fly
Birds fly over the rainbow
Why oh why can't I

Someday I'll wish upon a star
And wake up where the clouds are far
Behind me
Where Troubles melt like lemon drops
So way above the Chimney tops
That is where that is where
You're going to find me
Somewhere over the rainbow
Bluebirds gonna fly
Birds fly over the rainbow
Why can't I
Over the rainbow

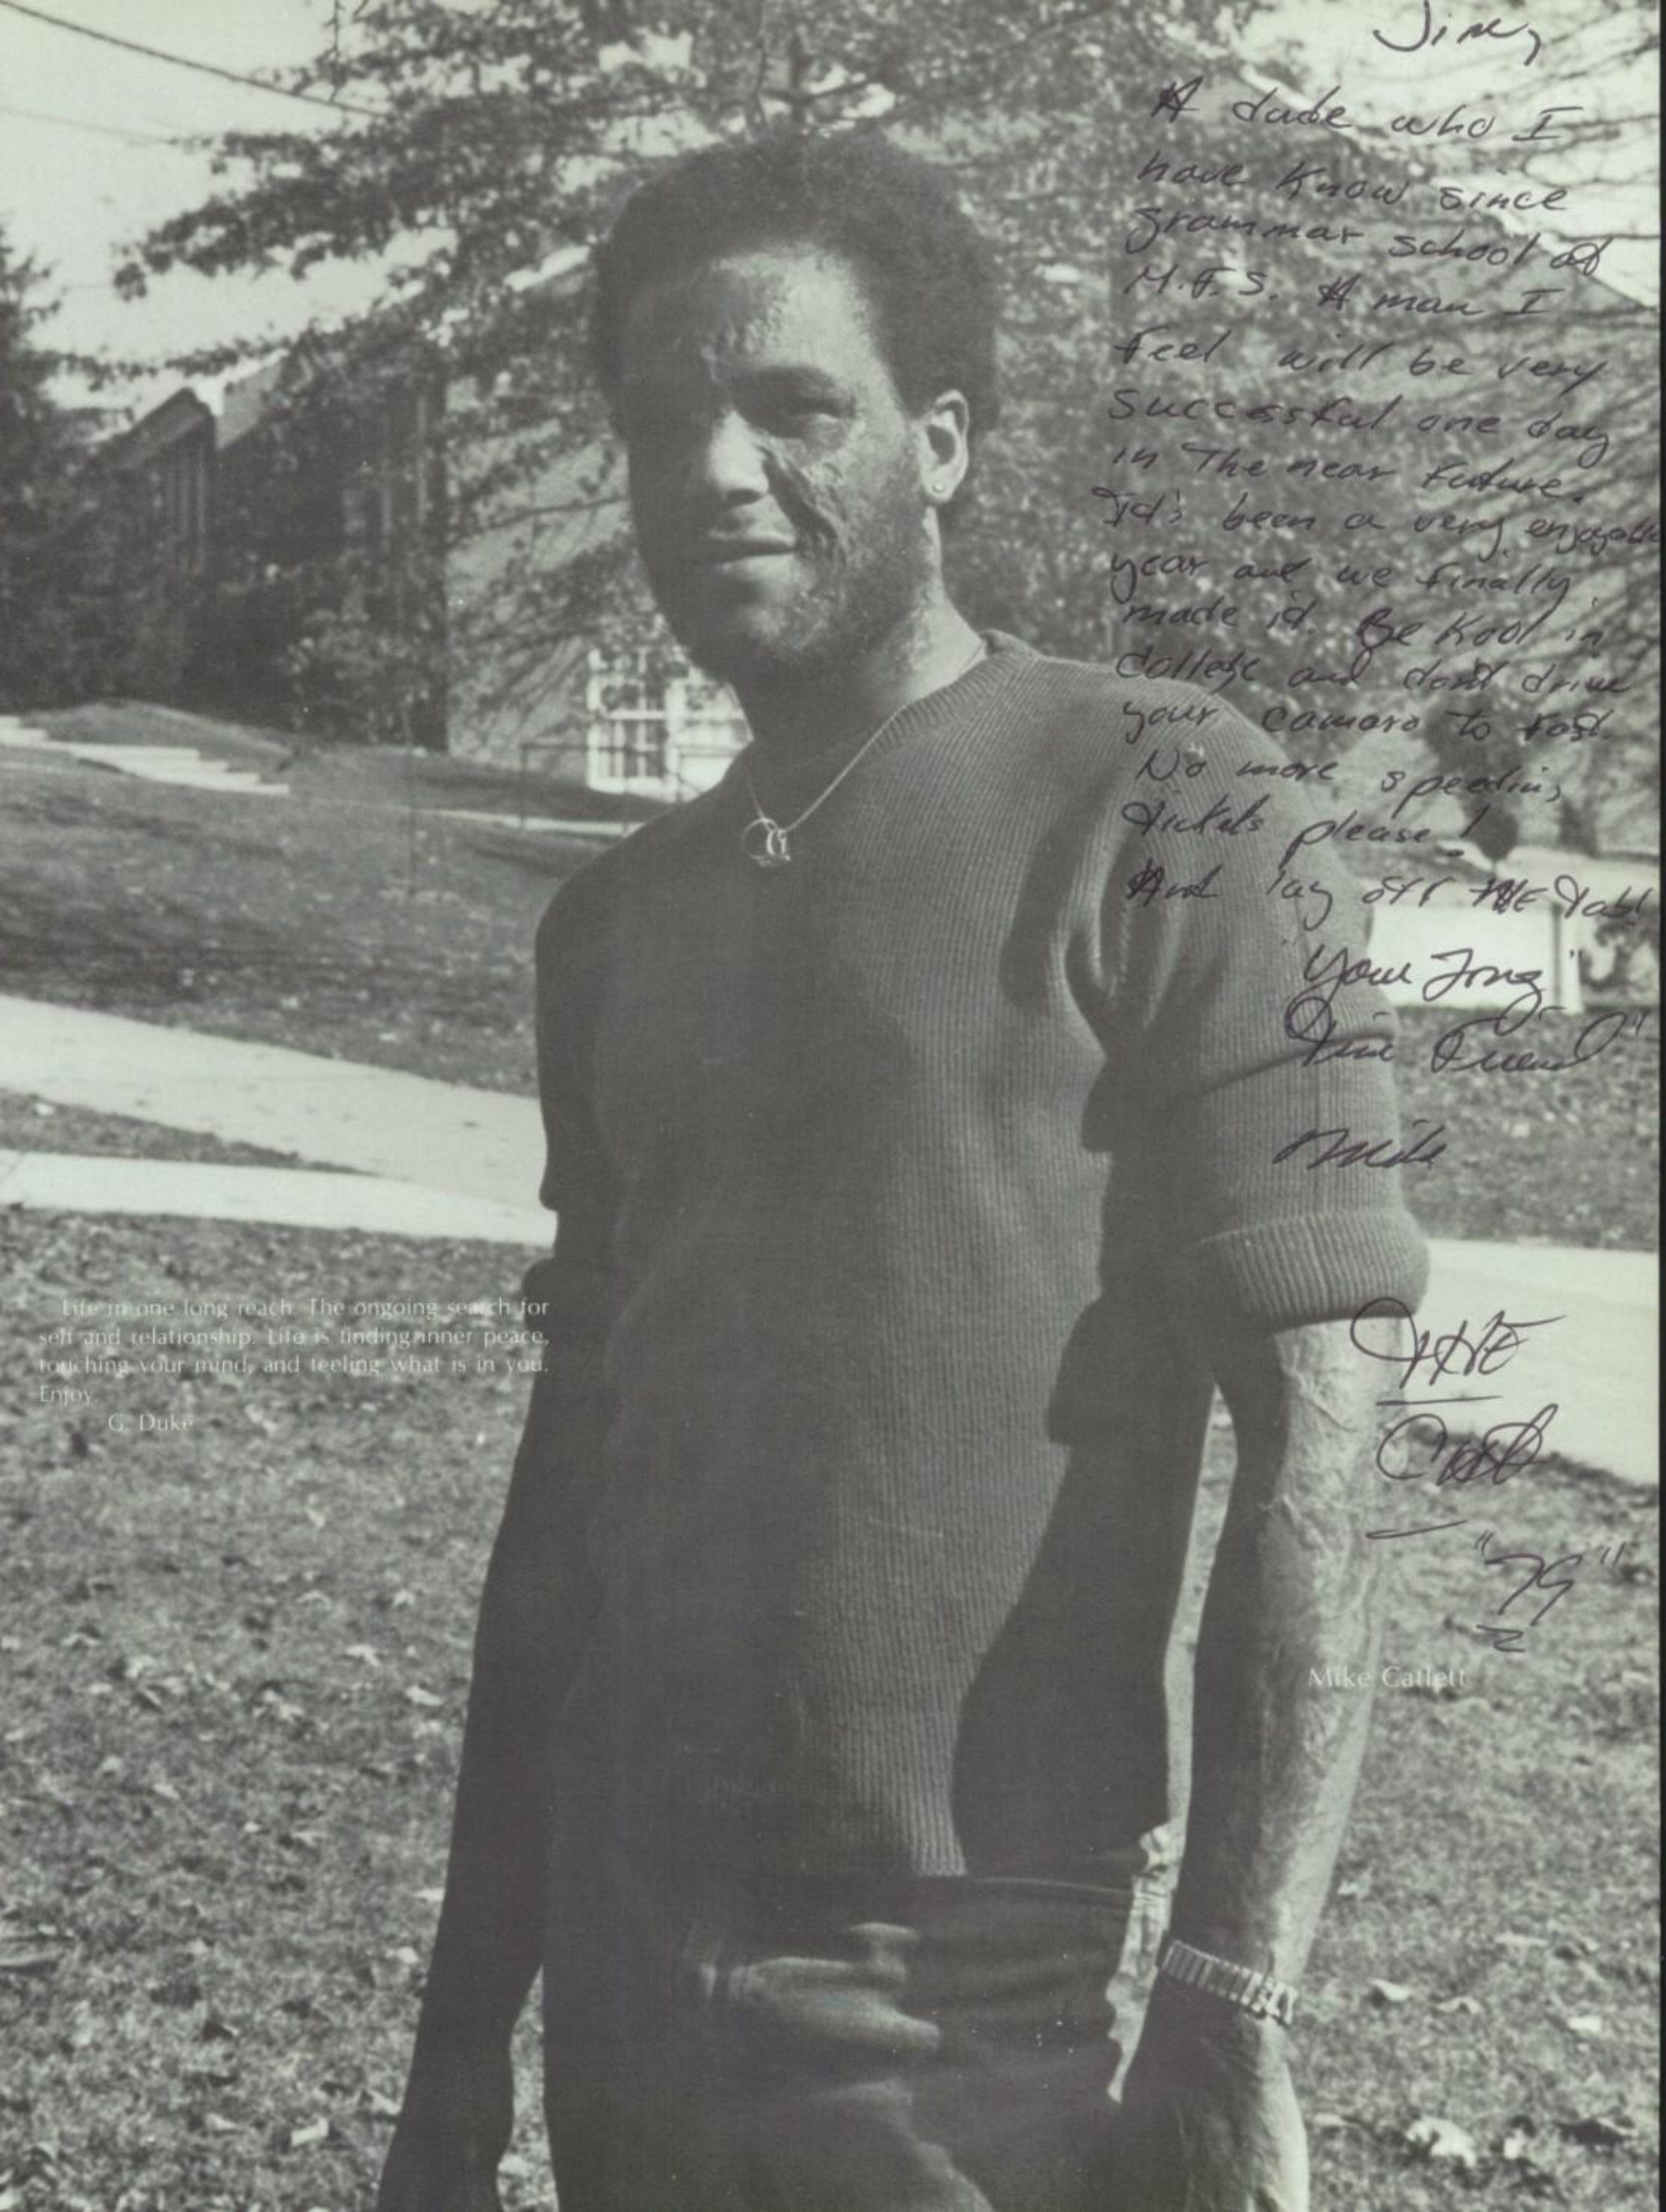
Jim,
It was nice
working with you in
yearbook - although I
got a lot of headaches & pains
still remember you taking me home
to get water for the ocean team - and I
remember you asking if I had a girlfriend - at that
time you
didn't -

Lord, we don't need another mountain,
There are mountains and hillsides enough to climb
There are oceans and rivers enough to cross
Enough to last till the end of time.

What the world needs now is love, sweet love
It's the only thing that there's just too little
What the world needs now is love, sweet love
No, not just for some but for ev'ry one.

Lord, we don't need another meadow
There are cornfields and wheatfields enough to grow
There are sunbeams and moonbeams enough to shine
O, listen Lord, if you want to know.

What the world needs now is love, sweet love,
It's the only thing that there's just too little of.
What the world needs now is love, sweet love,
No, not just for some but for ev'ry one,
No, not just for some but for ev'ry one.



Jim,

Of all the school activities, track and field comes closest to representing a circus. Whether it is a practice or a meet, many feats of physical skill or endurance are going on at the same time and in different places. It is hard to follow, unless like a circus, you know what to look for and what to expect. Sandy, the ringmaster, can be found watching Steve, the acrobat, polevault, Gene throwing the spear to a target, or Lars, juggling shot puts. As the number of performers is small, all members have to learn to participate in numerous events, especially the grand finale, the relay.

Jim,
You're really not a perverted putz, even though most people think you are. You've been a fairly good friend through my years here and I look forward to seeing or skiing with you in the future. I'd like to come out next Easter to ski at Vail with you again. Maybe by then you'll be as good as I am. It's good that you toned down your driving speeds, cause you were getting totally out of control. Good luck at college, and try to let Sharon keep you in line until you leave. Best wishes (or worst if your a pessimist)

Scott

YO BITCH!

cets see, how long has it been? I guess abaut 7 years, less the time it took me to meet the back of your head. let's see, There was caughey, Parkhurst (what a bitch) and lord knows who else. Leave us reflect, there was the time when Jack and sandy Copelan did there thing quote unquote or so they say! Lets see then there was Durbin, Mcaulre, and winzinger. Furthermore, Fuck YOU, what you think? Anyway we made it to seventa grade (on like certin other members of our infamous Class. Lets see, in seventh Grade we had Paul stratter, Rodney, Zegerman, lets see, I'm sure there were others. I'm not to clear on all the ~~seaps~~ scenes but I'll get better as I go along. And then there was 8 well, That was a great year! Anderson. Ruppi, Mitolioniquay (Tah), our militant french teacher (Thomas) The one and only John Whats his name who bangs around desks - Hopewell village, The last of sue&lew (lets go back a year to Dawn McCartney) God what else? fire works in the hall (seems we started a trend) It was in this grade that Drew began to dislike me. I dont know why. By this time, I was playing fullback and not playing enough of it foidermore it was IN all a very interesting year. And all of a sudden we were freshmen yeah, big shots in high school big deals! at least we thought so with such infamous personages as bob harbough and our numbers began to dwindal. But all this boils down to what an absolutely fab year that this one has been. lets see, on your side of route 130 there was the fire bird, And more important, the frail. And she is quite a gal so you be cool about it dig. Then theres a whole herd of other things. Vodka + O.J. before senior seminar cruising back and forth to Taco Chico (a bit of nostalgia) no? 1 slightly rusted cutlass 1 slightly scuffed cutlass (that farts) Three cars per year Duorkin, Greenberg, one slightly used linda smith, Good old Dipilla, Judy Hartman, Franks car problem's (and lord they were many), Juniors who take our parking spots, Robby Schiever finding a boy friend (a joke) so do me a favor huh? be Home when I call you Putz, Jungle love! And so much much more I annt done, I just gotta severe case of writers cramp! well I'm back. where is that shit car of yours. And wow, I remember... The Snuggery what is this shit hole... Butterbroat... wheres the water... zzzzz oh shit, no, Thomson i'll kill you (the royal scam), broken skis... frost bite... broken Down bus, all the heat, hey it's warm out here (at zero degrees)

Steins run (yes I can take a joke) ... Jenifer Applegate...
Astrul tune ... we want more money. Oh well be good
& Take good care of schweithart oh yeah, keep in touch or else?
I see you when I visit this summer. Don't do any thing I
wouldn't do (oh yeah).
